**Federal Energy Regulatory Commission**  
Washington, DC 20426

April 25, 2006

The Honorable Randy Mitchell  
Chairman  
South Carolina PSC  
P.O. Drawer 11649  
Columbia, SC 29211

Dear Chairman Mitchell:

As you recall, the March 15, 2006 letter you received from Chairman Kelliher of the Federal Energy Regulatory Commission (FERC) informed you of a survey on demand response and advanced metering that the Commission was conducting. In that letter, Chairman Kelliher promised to provide you a status report on which investor-owned utilities you regulate had fully responded to the survey and which had not.

The list with this information is enclosed.

Any assistance you can provide in getting the non-responding utilities in the list to complete this important survey would be greatly appreciated.

If you have any questions, please do not hesitate to contact me directly at (202) 502-6404 ([david.kathan@ferc.gov](mailto:david.kathan@ferc.gov)).

Sincerely,

A handwritten signature in black ink, appearing to read "David Kathan", is written over a horizontal line.

David Kathan  
Economist
